Steele Creek Park is a regional park encompassing more than 2,200 acres. In 1961, Mayor Stacy Grayson announced plans to construct a park at Steele Creek. A 99-year lease was approved by the State and later the property was deeded to the City of Bristol. Steele Creek Park opened to the public on June 6, 1964. The park’s main entrance is located at 4 Little Lane.

Message from the Director of Parks and Recreation

In parks and recreation, the seasons come and the seasons go. When I think back, I see 2019 as a very productive year. Productive can mean several things such as park and recreational employees staying on top of maintenance, answering all calls and making sure all our reservation and registration forms are available, scheduling game/practice times, ordering uniforms and trophies, and also just building a positive relationship with our community. Factor in new projects, new events in our parks, and participation numbers at an all-time high, I think this has made for a very productive and busy 2019. We are ready for an even more productive year in 2020. If you have any information to share or any concerns, please feel free to contact me.

Cancer is a challenging diagnosis which is fought with many different modalities of treatment. Proton Therapy is a non-invasive treatment that has become a trusted method for precisely targeting tumors and reducing the risk of side effects, providing quality of life both during & after treatment. East Tennessee is fortunate to have only one of 32 operating Proton Therapy centers in the United States located in Knoxville, Tennessee. This presentation will provide a brief overview of how proton therapy fits into cancer care, what it is & how it works, as well as examples of disease sites in which it is most beneficial.
